Aspiring Data Analyst with B. Tech CSE and 2+ years content strategy experience, pivoting to analytics. Building end-to-end Power BI + SQL + Python solutions to translate data into business decisions. Actively seeking analyst roles to leverage storytelling + technical skills.

Technical Skills

- Data Analysis & Viz: Power BI, DAX, Power Query, Tableau, Advanced Excel
- Databases: MySQL, SQL Server | Proficient: JOINS, Aggregations | Learning: CTEs, Window Functions
- Programming: Python | Libraries: Pandas | Concepts: Functions, Data Cleaning, OOPs, DSA | *May–June 2026
- Other: Web Scraping, Git

Projects

#1: *Bookstore Sales Analytics Dashboard* | Power BI, SQL, Python | May 2026 | Completed May 29, 2026

GitHub: github.com/ak197/Data-Analytics-Portfolio

Tech Stack: SQL, SQLite, Power BI, DAX, ETL, Data Modeling, Python

- Built SQL ETL pipeline + Power BI dashboard analyzing 1,000+ sales records. Found Self-Help drives 37.5% revenue + Jan peak ₹2,397 to optimize inventory stock-up.
- Cleaning data with SQL JOINS; calculating KPIs with Python functions and DAX measures
- Designing KPI cards, bar charts, and time-series visuals in Power BI to enable inventory planning decisions
- Deliverable: 1-page dashboard with KPIs, trend analysis, and inventory insights

#2. *HR-Employee Attrition Analysis* | SQL, Power BI | June 2026 | Completed June 20, 2026

GitHub: github.com/ak197/HR-Employee-Attrition-Dashboard

Tech Stack: Advanced SQL, Power BI, DAX, Data Modeling

- Built Power BI dashboard from 8 SQL KPIs to analyze attrition for 1,470 employees
- Identified Sales Representative role with 39.76% attrition vs company avg 16.12% using DAX measures + relationships
- Delivered interactive dashboard with 4 visuals revealing Sales dept paradox: highest salary 7K but 20.6% attrition

Work Experience

Freelance Content Writer & Editor | Self-Employed | Oct 2020 – Dec 2022

- Researched and produced 50+ data-backed articles for 10K+ monthly readers, simplifying complex tech/finance topics
- Used Google Analytics + SEMrush to optimize content; increased average client engagement 30%
- Managed stakeholder requirements and publishing deadlines across 5+ concurrent clients
- Collaborated with 5+ clients to gather requirements and present data-backed content strategies to stakeholders

Certification

Complete Data Science Training – Udemy | In Progress | Python, Statistics, Machine Learning, Deep Learning

Education

B. Tech, Computer Science & Engineering | Narula Institute of Technology | 2016 – 2020 |
CGPA: 8.6/10
